

# Go beyond at Immanuel.

A co-educational boarding school (est. 1895) in Adelaide, South Australia

## Beyond expectations

Immanuel is an award-winning independent school. Our motto, Plus Ultra, means to aim high, go beyond and exceed expectations – a principle that has inspired generations of students and teachers since Immanuel was founded in 1895.

Our innovative approach to education, progressive learning environments, and outstanding facilities have been recognised as among Australia's best. But it's what you can't easily see or measure that makes us exceptional. We're a vibrant community that supports students to go beyond what they think is possible. Beyond expectations.

### At Immanuel College, your student will find:

a long history of teaching excellence and academic success

more than 50 subjects to choose from, including a selection of subjects with a focus on technology, science and maths

clear pathways to university and personalised career development

high school preparation classes (ELICOS) on site to help students transition to a mainstream Australian high school environment

safe and spacious grounds with easy access to the city, beach culture, and international airport

a new \$13.5 million Discovery Centre that offers students new ways to learn, including social, learning, collaboration, and wellbeing zones

a caring community that values freedom and diversity.

2019 Australia Education Awards Principal of the Year finalist

Immanuel College is led by Principal Kevin Richardson. Mr Richardson is an exceptional educator who has been recognised for his innovation, leadership, and personal approach to student care. Under his guardianship, Immanuel's international students:

feel welcome, cared for, and empowered to succeed

thrive and attain academic excellence

become part of a network that supports them throughout all stages of their life

are prepared for life beyond school in Australia or around the world.

*Adelaide is Australia's most liveable city and the third most liveable city in the world.*

Boarding School of the Year finalist in Australian Education awards in 2021

## Beyond care to community

The Principal lives on Immanuel's campus and, along with a dedicated international student services team, academic tutors, nurses, staff and security, creates a safe and supportive community. Immanuel's boarding house is one of Australia's best, with state-of-the-art facilities designed to develop social skills and build collegiate connections, as well as support academic performance. International students can also choose to live with carefully selected local homestay families to immerse themselves in the Australian culture and cement their place in the local community.

## Beyond the books

Immanuel sits between the best of both worlds; it's minutes away from the heart of Australia's most liveable city and some of Australia's best beaches. Open spaces, beach culture and a safe cosmopolitan city enrich the lives of all of Immanuel's students. Co-curricular activities like swimming, surfing, bushwalking, and school camps teach students valuable life skills and they are encouraged to enjoy Immanuel's excellent sports and performing arts facilities.

Our international alumni often say that, while they feel fortunate to have had the best academic start at Immanuel, what they value most is the lifelong friendships they developed within the Immanuel community. There are some things you just can't learn from a book.

## Beyond high school

Immanuel's program of academic excellence should lead to admission to Australian or international universities and allows students to build valuable industry connections. Adelaide based defence, space, technology, and creative industries are actively recruiting for exceptional talent. To gain industry experience, South Australian under- or postgraduate students are eligible to stay and work in Adelaide for 3 years upon completion of their degree.

*It's the Immanuel way: further, beyond.*

*At Immanuel College we always look to exceed expectations and we teach our students to do the same. To challenge themselves academically and discover what they're capable of physically, mentally, and spiritually. To go further than they ever thought possible, in school and in life. To go beyond expectations.*
